Karlsruhe House of Young Scientists (KHYS)
Karlsruhe House of Young Scientists (KHYS) is the central institution for the promotion of junior researchers at Karlsruhe Institute of Technology (KIT). We support doctoral researchers, postdocs*, the Young Investigator Network (YIN), and doctoral programs. Our various offers are specifically tailored to junior KIT researchers and aim to foster an open scientific and interdisciplinary exchange of ideas and knowledge.

The central objectives of KHYS are to provide advice, support and funding to junior researchers, to further develop both the promotion of young scientists and the framework conditions for doctoral researchers and postdocs at KIT.

Further education opportunities
With our further education opportunities we support young scientists regarding professional competencies in order to prepare them as best as possible for their careers in and outside academia.

Our partners are the Research Office (FOR), Innovation and Relations Management (IRM), National Institute for Science Communication (NaWik), Human Resources Development and Trainee Department (PEBA) and Sprachenzentrum (SpZ).

KHYS membership
By registering via the KHYS Registration Portal (doctoral researchers) or KHYS network (postdocs), you become a member of KHYS and become eligible for our manifold offers.
