

Aspirant Grant (Postdoc)

Young scientists face the challenge of choosing between various promising options for their career paths once they have finished their doctorates. This is where the Aspirant Grant (Postdoc) comes into play. With the grant, KIT welcomes talented young scientists especially from abroad who would like to pursue an excellent international scientific career. The Aspirant Grant (Postdoc) offers the opportunity for superiors at KIT to invite potential postdocs for a one-month research stay at their institute. The grant supports superiors in winning outstanding postdoctoral researchers for KIT and offers potential candidates for a postdoc at KIT an opportunity to experience an excellent research and work environment at first hand. The focus is on inviting aspirants from abroad, however, it is also possible to invite promising candidates from other German universities.

During the visit, both parties have the chance to get to know each other and to discuss the possibility for the aspirant of doing a postdoc at KIT. Karlsruhe House of Young Scientists (KHYS) covers the travel and accommodation expenses for the aspirant's stay. The [KHYS Postdoc Office](#) supports the aspirants during their stay and provides information regarding the postdoc phase at KIT. The grant helps the aspirant to make a sound decision regarding his or her next career step. A (post)doctoral researcher of the host institute will serve as a "buddy" to the aspirant and assist him or her with regard to administrative issues or questions concerning the facilities at KIT or living in Karlsruhe. The KIT buddy may use this opportunity to develop his or her own (international) network and intercultural competences.

For more information, please refer to the [current call for applications](#).

Target group: (Post)doctoral researchers from outside KIT ("aspirant"); professors, heads of institutes at KIT, KIT Associate Fellows, heads of certified [KIT junior research groups](#) ("KIT applicant")

Scope of funding:

- The aspirant will receive a refund for the costs of the journey to and from Karlsruhe (economy class tickets for flight/train) as well as the accommodation costs for the one month in Karlsruhe. The costs for accommodation should not exceed EUR 1,200. For the travel accounting process according to the provisions of the Baden-Württemberg travel expenses law (Landesreisekostengesetz, LRKG), the aspirant needs to provide all original receipts (including boarding pass) as well as payment confirmations.
- Please note that double funding is not permitted.

For clarity, the Grant will NOT cover:

- Daily allowance (Tagegeld)
- Public transport during the stay (only as part of the arrival and departure refundable)
- Any other trips/activities during the stay in Germany

Please refer to our [FAQs](#) for more information concerning the Aspirant Grant (Postdoc). If you have any further questions please contact [Denisa Kičmerová](#) or send an e-mail to aspirant_postdoc@khys.kit.edu.

Please note: The program is also available for inviting graduates interested in doing a doctorate at KIT for a one-month stay. [Here](#), you can find information regarding the Aspirant Grant (Doc).

Current call for applications

Deadlines and dates:

- The grant is awarded subject to allocation of funds by the Initiative and Networking Fund of the Helmholtz Association. Applications may be handed in anytime as long as funds are available. Due to the limited budget, we recommend that you apply as soon as possible.
- To facilitate the processing, the applications will be bundled at certain deadlines. Please refer to the [website](#) for the next date.
- Selection decisions will be made by members of the [KHYS Steering Committee](#) in a circulation procedure. Please note that this process will take some time.
- The stay should take place by the date published on the [website](#) at the time of your application.

Application requirements:

- The KIT applicant and the aspirant have to jointly apply for the Aspirant Grant (Postdoc). The KIT applicant has to conclusively state why he or she wants to invite this particular aspirant to KIT. The aspirant in return has to point out why he or she wants to come to KIT.
- The aspirant should be in an advanced stage of his or her doctorate or have finished their doctorate less than about three years ago.
- The stay at KIT should enable the aspirant to gain an impression of the research environment in which he or she may be doing a postdoc in the future.
- A KIT (post)doctoral researcher serves as the aspirant's "buddy" and assists him or her regarding administrative issues or questions concerning the facilities at KIT or housing and free-time activities.
- KIT Associate Fellows and heads of certified KIT junior research groups have to be eligible to supervise postdoctoral researchers in the framework of his/her own research projects. They should hand in a corresponding letter of support from the head of institute.
- In principle, the aspirant's (future) doctoral degree will have to be equivalent to a German doctoral degree.
- Funding for the same purpose is not admissible.

Application documents:

- [Application form](#) signed by the KIT applicant, the KIT "buddy", and the aspirant
- If the applicant is a KIT Associate Fellow or a head of a certified KIT junior research group: a letter of support from the head of institute including, among other things, an

outlook regarding the support for the hiring and/or supervision of the postdoctoral researcher should the stay at KIT be successful (see Question 1.5 in the FAQs)

- Documents provided by the aspirant:
 - CV including date of birth; course of studies (discipline, duration, place, grade); stays abroad; awards/acquired third-party funding (if applicable); research and teaching experience etc.
 - List of publications (please distinguish between peer-reviewed and other publications)
 - Letter of recommendation by a former professor/professor of the home institution
 - Scans of **all** of the following official documents:
 - Bachelor's **and** master's degree certificates as well as performance record/Transcript of Records in original language
 - Bachelor's **and** master's degree certificates as well as performance record/Transcript of Records in English or German (if possible translations provided by your home university)
 - Document stating the grading system of the university for the master's degree (explaining the highest and lowest grade possible as well as the distribution of the grades, e.g. proportion of merit grades, mark range)
 - Doctoral degree certificate or document proving the status as a doctoral researcher and performance record/Transcript of Records in the original language
 - Doctoral degree certificate or document proving the status as a doctoral researcher and performance record/Transcript of Records in English or German (if possible translations provided by your home university)
- [Excel table](#) containing the key data of the application (please hand in separately in Excel format)
- Statement of the KIT applicant (via separate e-mail) regarding the plans for funding the potential postdoctoral project

All documents should be in English. Please merge all documents into one PDF file in the order stated above (excluding the Excel table and the funding statement) and send the files to aspirant_postdoc@khys.kit.edu.

Selection criteria

- Compliance with application requirements
- Fulfillment of required formalities (a complete application, submitted in time, including all required documents, filled-out correctly and signed)
- Conclusiveness of motivation of the aspirant to come to KIT for the stay
- Plausibility of reasons of KIT applicant for inviting the aspirant
- Quality/conclusiveness of the activities planned for the stay
- Qualification of the aspirant/scientific track record

Procedure

Approval:

As soon as your application has been approved, you and the aspirant will be notified via e-mail. For non-EU citizens, the notification of approval will be given under the condition of a positive outcome of a check regarding foreign trade regulations. Attached to the e-mail there will be a Written Statement of Commitment. Please sign it and send it back via internal mail ("Hauspost"). The aspirant will receive a form for entering general information that will be needed to prepare all necessary documents for the Aspirant Grant (Postdoc). At a later point in time, the aspirant will receive an invitation letter that is needed for visa applications (if applicable). In order for KHYS to be able to make a payment to the aspirant, KIT needs to conclude a Grant Agreement with the aspirant. This document will be provided to the aspirants after their arrival at KIT.

Arrival/visa:

If the aspirant needs a visa for coming to Germany, he or she should apply for it in good time. For the Aspirant Grant (Postdoc) it will be sufficient to apply for a Schengen Visa (Category C) with the purpose of a business visit. Among other things, the aspirant will have to provide a proof of accommodation for the stay in Karlsruhe. However, it will not be necessary to register with the City of Karlsruhe for such short-term stays. Finding accommodation in Karlsruhe is very difficult, which is why the KIT (post)doctoral researcher who serves as the aspirant's buddy shall help him or her in this regard. For short-term stays, guests can book a room at KIT's [International Guesthouse](#) or at the [Gastdozentenhaus](#) (house for guest lecturers). However, bookings have to be made well in advance. Additional accommodation possibilities are listed in [► Accommodation Information Sheet](#) published by KIT International Affairs.

For any questions concerning the visa the aspirant should contact the respective German Embassy or German Consulate. KHYS will send out the invitation letter needed for the visa. Please note that the Category C visa **cannot be extended**. It is therefore not possible for the aspirant to extend his or her stay at KIT in order to actually start the postdoctoral project discussed during the stay. He or she will first have to leave Germany and apply for another visa.

Payment arrangements:

The process for the payment will be defined for each aspirant individually. As a rule, the reimbursement of the travel costs will take place once the stay has been concluded. This means that the aspirant will have to pay for the journey in advance. KHYS will directly assign and pay out the grant to the aspirant. The aspirant will receive a refund for the costs of the journey to Karlsruhe (flight/train) plus a maximum sum of EUR 1,200 for accommodation for the month. The costs for accommodation will be reimbursed according to the provisions of the Baden-Württemberg travel expenses law (Landesreisekostengesetz, LRKG). The reimbursement will generally take place once the travel accounting process has been concluded. For more information, please refer to the [FAQs](#).

Duty to report:

Please note that the aspirant will have to send us a final report within four weeks after the aspirant's stay at KIT. Templates for the report will be made available. The obligation to submit a report is a compulsory part of the Aspirant Grant (Postdoc). Please note that for evaluation reasons it is also necessary that you notify us should the Aspirant Grant (Postdoc) result in an actual postdoctoral project at KIT.
